

Even the government agrees, Super Brain has something special...

U.S. Patent #6,218,808 B1

NEW... Super Brain 977

This pro-level, AC/DC charger features dual output & discharge capabilities. Charges NiCd, NiMh and lead acid. **In addition, it features special design circuitry for lithium based batteries.**

Super Brain 819

AC/DC Delta Peak Charger for 6-8 cell NiCd & NiMh sub-c packs (7.2 to 9.6) volt, 1500 mAh and higher.

Over time, conventional chargers can cook your battery diminishing its capacity, robbing its power and reducing your running time. Super Brain's Patented Micro Peak Technology designed for NiCd and NiMH eliminates false peaks by recognizing a full charge with incredible accuracy. It keeps your battery cooler during charging, extends its life, delivers longer running time and allows for continuous charging. This is technology that obsoletes other chargers, and Super Brain holds the patent.

Super Brain 959

AC/DC Delta Peak charger for all types of NiCd & NiMH batteries. Features adjustable charge rates up to 4.5 amps.

"All Super Brain Chargers Feature Patented Micro Peak Technology"
